### *Analysis by the Legislative Reference Bureau*

Under current law, the department of revenue (DOR) and any other state agency are prohibited from engaging in any promotional advertising of the state lottery or any multistate lottery in which the state participates. Promotional advertising is defined as advertising that is for the purpose of inducing persons to purchase lottery tickets or lottery shares. DOR and other state agencies, however, are not prohibited from engaging in advertising that is designed to provide the public with general information about the state lottery, the state's participation in a multistate lottery, the location where lottery tickets and lottery shares may be purchased, the price of lottery tickets and lottery shares, and the prize structure of lottery games.

This bill provides that DOR and other state agencies may only engage in this informational advertising by posting one or more signs at locations at which lottery retailers sell lottery tickets or lottery shares. The bill also reduces the amounts appropriated in the 2001-03 fiscal biennium to DOR for the informational advertising.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
