### *Analysis by the Legislative Reference Bureau*

Under current law, a manufacturer may claim an income or franchise tax credit in an amount that is equal to the sales tax and the use tax that the manufacturer paid on fuel and electricity used for manufacturing tangible property in this state. If the credit claimed by a manufacturer exceeds the manufacturer's tax liability in the taxable year, the manufacturer may carry forward any remaining credit to the following 15 taxable years. Under this bill, if the credit claimed by a manufacturer exceeds the manufacturer's tax liability in the taxable year, the manufacturer may carry forward any remaining credit to the following 20 taxable years.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
