### *Analysis by the Legislative Reference Bureau*

Current law prohibits smoking in most enclosed, indoor locations that are accessible to the public unless there has been a specific area that has been designated

**SENATE BILL 199**

a smoking area. This bill limits the areas where any smoking areas may be designated to hospitals where the primary purpose is for treatment of mental illness, alcoholism, or drug abuse; mental health institutions; centers for the developmentally disabled; prisons; and jails. The locations where smoking areas may no longer be designated under the bill include the following:

1. Mass transit vehicles and school buses.
2. Schools and other educational facilities.
3. Inpatient health care facilities such as community-based residential facilities and licensed nursing homes.
4. Movie theaters.
5. Offices and other places of employment, as described below.
6. Restaurants that have seating capacities of more than 50 persons, except as described below.
7. Retail establishments.
8. Public waiting rooms.
9. County, city, village, state, and town buildings.

Current law provides exceptions from the prohibition against smoking for rooms in which the main occupants are smokers and for areas of facilities that are used to manufacture or assemble goods, products, or merchandise. This bill eliminates these exceptions. This bill also expands the concept of “offices” under current law to include any place of employment. The bill defines “a place of employment” to be any indoor area that employees normally frequent during the course of employment such as a work area, an employee lounge, a restroom, a conference room, a meeting room, a classroom, or a hallway. The definition excludes any private residence unless it is an adult day care center.

Current law allows smoking in any restaurant holding an intoxicating liquor license or beer license issued by a municipality if the sale of alcoholic beverages subject to the license accounts for more than 50 percent of the restaurant’s receipts. The bill increases this percentage to 75 percent and applies this provision to all businesses operating under one of these licenses.

Current law also allows smoking in any bowling center and any restaurant that has seating for a maximum of 50 persons. This bill eliminates the capacity requirements for restaurants and prohibits smoking in bowling centers.

Current law prohibits any person from smoking at an outside location that within the immediate vicinity of the state capitol building. Current law defines “immediate vicinity” for this purpose to be six feet. The bill changes this distance to 25 feet.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
