Analysis by the Legislative Reference Bureau

The health care liability provisions of the statutes require certain health care providers to carry health care liability (medical malpractice) insurance with liability limits of at least \$1,000,000 for each occurrence and at least \$3,000,000 for all occurrences in a policy year. Any portion of a medical malpractice claim that exceeds the policy limits is paid by the injured patients and families compensation fund (fund) for health care providers that are subject to the health care liability provisions. Money for the fund comes from annual fees paid by those health care providers.

Current law provides that the fund is established to curb the rising costs of health care by financing part of the liability incurred by health care providers, that the fund is held in irrevocable trust for the sole benefit of health care providers and proper claimants, and that the fund may not be used for any other purpose of the state. This bill provides that, before January 1, 2020, moneys in the fund may not be transferred from the fund to be used for any purpose not specifically stated under current law as a use for moneys in the fund.
