### *Analysis by the Legislative Reference Bureau*

This proposed constitutional amendment, proposed to the 2007 legislature on first consideration, provides that the people have the right to enter into private contracts with health care providers for health care services and to purchase private health care coverage, and prohibits enactment of any law that requires any person to participate in any state-sponsored health care system or plan.

A constitutional amendment requires adoption by two successive legislatures, and ratification by the people, before it can become effective.
