#### **CURRENT LAW**

##### **PROFESSIONAL EMPLOYER ORGANIZATIONS**

Under current law, for purposes of liability for unemployment insurance, a professional employer organization (PEO) is considered to be the employer of the employees whom the PEO engages to perform services for its clients. Current law defines a PEO as any person who contracts to provide the nontemporary, ongoing employee workforce of more than one client under a written leasing contract, the majority of whose clients are not under the same ownership, management, or control as the person other than through the terms of the contract, and who meets all of the following qualifications:

1. The person has the right to hire and terminate the employees who perform services for the client and to reassign the employees to other clients.
2. The person sets the rate of pay of the employees and pays the employees from its own accounts.
3. The person has a general right of direction and control over the employees, which right may be shared with the client to the degree necessary to allow the client

**SENATE BILL 440**

to conduct its business, meet any fiduciary responsibility, or comply with any applicable regulatory or statutory requirements.

4. The person assumes responsibility for the unemployment insurance coverage of the employees.

5. The person has the obligation to establish, fund, and administer employee benefit plans for the employees.

6. The person provides notice of the employee leasing arrangement to the employees.

**THE BILL****REGISTRATION OF PROFESSIONAL EMPLOYER ORGANIZATIONS*****Introduction***

This bill provides for the registration and regulation of PEOs. Specifically, under the bill:

1. No person may offer or provide professional employer services, advertise that the person is a PEO or that the person provides professional employer services, or otherwise hold itself out as a PEO, unless the person first registers with the Department of Regulation and Licensing (DORL).

2. Subject to certain exceptions, a PEO must maintain working capital of not less than \$100,000 or a bond or other commitment in an amount that is not less than \$100,000 to secure the payment of wages and other amounts that are payable by the PEO.

3. Certain rights, duties, and obligations under current law relating to insurance, licensing, and tax credits and other economic development incentives are unaffected by the bill.

***Registration***

***Initial registration.*** The bill requires a PEO that is operating in this state on the effective date of the bill to register with DORL by no later than 180 days after that date. The bill provides that such an initial registration is valid until 180 days after the end of the first fiscal year of the PEO that ends more than one year after the effective date of the bill. Similarly, the bill requires a PEO that is not engaged in the business of providing professional employer services in this state on that date to register with DORL before engaging in that business in this state and provides that such an initial registration is valid until 180 days after the end of the first fiscal year of the PEO that ends after the date of initial registration.

Under the bill, a person may apply for registration by paying the initial credential fee determined by DORL and filing a registration form that includes all of the following information:

1. The name or names under which the applicant conducts business.

2. The address of the principal place of business of the applicant and of each office that the applicant maintains in this state.

3. A list by jurisdiction of each name under which the applicant has operated in the five years preceding the date of the application, including any alternate names of the applicant, the names of any predecessor business entities of the applicant, and, if known, the names of any successor business entities of the applicant.

**SENATE BILL 440**

4. A statement of ownership, which must include the name and business experience of every person who owns or controls 25 percent or more of the ownership interest of the applicant.

5. A statement of management, which must include the name and business experience of every person who serves as president or chief executive officer of the applicant or who otherwise has the authority to act as the senior executive officer of the applicant.

6. A financial statement that sets forth the financial condition of the applicant as of a date that is not more than 13 months preceding the date of the application, that is prepared in accordance with generally accepted accounting principles, and that has been audited by an independent certified public accountant. The bill specifies that the financial statement shall be without qualification as to the going concern status of the applicant.

**Renewal registration.** Under the bill, a PEO that wishes to renew its registration must, by no later than 180 days after the end of the PEO's fiscal year, renew that registration by notifying DORL of any changes in the information specified in the previous registration form, filing an updated financial statement, and paying the renewal fee determined by DORL. A renewal registration is valid for one year after the date of renewal.

**Limited registration.** The bill permits a PEO that is domiciled outside this state, that is registered or licensed as a PEO in another state, that does not maintain an office in this state or directly solicit clients in this state, and that has no more than 50 employees performing services for clients in this state on any given day to apply for limited registration. A limited registrant is not required to comply with the financial capability requirements under the bill.

**Electronic or alternative registration.** In addition, the bill permits DORL to promulgate rules providing for registration of a PEO on acceptance by DORL of a registration form, financial statement, or any other information or documentation required under the bill or rules promulgated by DORL in the form of an electronic record and, if a signature is required, on acceptance of an electronic signature. The bill also permits DORL to promulgate rules providing for registration of a PEO, without compliance with the registration and financial capability requirements of the bill, on acceptance of assurance provided by a bonded, independent, and qualified assurance organization that has been approved by DORL that provides assurance satisfactory to DORL that the PEO is qualified to engage in the business of providing professional employer services in this state (alternative registrant).

***Financial capability***

The bill requires a PEO, other than a limited registrant or an alternative registrant, to maintain one of the following:

1. Working capital of not less than \$100,000, except that DORL may issue a registration or renewal registration to a PEO that has less than \$100,000 in working capital contingent on the PEO meeting the minimum working capital requirement no later than 180 days after the issuance of the registration or renewal registration. During the period of contingent registration, the PEO must submit quarterly financial statements to DORL accompanied by an attestation that all wages,

**SENATE BILL 440**

salaries, employee benefits, worker's compensation insurance premiums, payroll taxes, unemployment insurance contributions, or other amounts that are payable by the PEO to or with respect to an employee of the PEO who is performing services for a client were paid when due.

2. A bond, certificate of deposit, escrow account, or irrevocable letter of credit in an amount that is not less than \$100,000, or, if the PEO's financial statement submitted to DORL indicates a deficit in working capital, a bond, certificate of deposit, escrow account, or irrevocable letter of credit in an amount that is not less than \$100,000 plus an amount that is sufficient to cover that deficit, to secure the payment of wages, salaries, employee benefits, worker's compensation insurance premiums, payroll taxes, unemployment insurance contributions, or other amounts that are payable by the PEO to or with respect to an employee of the PEO who is performing services for a client if the PEO does not make those payments when due.

***Rights, duties, and obligations unaffected***

The bill provides that a PEO that offers, markets, sells, administers, or provides professional employer services that include the provision of employee benefit plans for the employees of the PEO performing services for a client is not engaged in the business or sale of insurance or in the business of an employee benefit plan administrator. The bill requires this provision to be liberally construed to permit PEO's to provide employee benefit plans without being considered to be engaged in the business or sale of insurance or in the business of an employee benefit plan administrator.

Also, for purposes of the insurance laws governing small employer health insurance, the bill provides that an insurer that contracts with a PEO that has more than 50 employees performing services for one or more clients is not a small employer insurer with respect to the contract between the insurer and the PEO, that a PEO that provides health care benefits for more than 50 employees performing services for one or more clients is not a small employer, and that a client of such a PEO is not a small employer if the employees of the PEO performing services for the client are offered health care benefits under a health benefit plan sponsored by the PEO.

In addition, the bill provides that nothing in the bill or in a contract for the provision of the nontemporary, ongoing workforce of a client may be construed to affect or impair any federal, state, or local licensing, registration, or certification requirement that is applicable to a client or to an employee of the PEO who is performing services for a client.

Finally, the bill provides that, for purposes of tax credits, economic development incentives, and other benefits that arise out of the employment of employees, the client is entitled to those credits, incentives, and other benefits that arise out of the employment of an employee of a PEO who is performing services for the client.
