### *Analysis by the Legislative Reference Bureau*

Under current law, the Higher Educational Aids Board (HEAB) administers the Academic Excellence Higher Education Scholarship Program under which HEAB awards scholarships to certain designated scholars who enroll full-time in a public or private institution of higher education in this state that is participating in the program. Currently, the scholarships may be awarded to 1) the senior with the highest grade point average from each high school in this state enrolling at least 80 but fewer than 500 pupils; 2) the two seniors with the two highest grade point averages from each high school in this state enrolling at least 500 but fewer than 1,000 pupils; 3) the three seniors with the three highest grade point averages from each high school in this state enrolling at least 1,000 but fewer than 1,500 pupils; 4) the four seniors with the four highest grade point averages from each high school in this state enrolling at least 1,500 but fewer than 2,000 pupils; 5) the five seniors with the five highest grade point averages from each high school in this state enrolling at least 2,000 but fewer than 2,500 pupils; and 6) the six seniors with the six highest grade point averages from each high school in this state enrolling 2,500 or more pupils. In addition, those scholarships may be awarded to the senior with the highest grade point average from the school operated by the Wisconsin Center for the Blind

and Visually Impaired and the school operated by the Wisconsin Educational Services Program for the Deaf and Hard of Hearing, and not more than ten scholarships statewide may be awarded to seniors with the highest grade point averages from high schools enrolling fewer than 80 pupils.

Currently, if two or more seniors from a high school have the same grade point average and are otherwise eligible for a scholarship, the applicable number of seniors are designated as scholars according to written tie-breaking criteria as required by HEAB by rule, and the remaining seniors with the same grade point average are certified as alternates, who may be awarded a scholarship if a designated scholar does not enroll in a participating institution of higher education. For a high school that weights different courses differently to determine a pupil's grade point average, a senior with the next highest grade point average may also be certified as a scholar if the senior who is designated as a scholar does not enroll in a participating institution of higher education and there is no other senior with the same grade point average as the designated scholar.

This bill permits those seniors with the next highest grade point average, but not less than 3.800 or the equivalent, to be certified as alternates and permits such an alternate to receive a scholarship if a senior who is designated as a scholar or an alternate with the same grade point average does not enroll in a participating institution of higher education in all cases, regardless of how the high school weights its courses. The bill also changes the date by which a school must designate a scholar from February 15 to February 25 of a school year.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
