Analysis by the Legislative Reference Bureau

This bill expands the purposes for which the Department of Natural Resources (DNR) may pay costs under contracts with public groups or persons who participate in a statewide lake monitoring network. In addition to the costs that DNR is allowed to pay under these contracts under current law, the bill allows DNR to pay the costs of lake surveys and watercraft inspection and the costs of producing and distributing lake survey results and reports.

This bill also allows DNR to use a portion of the funding currently appropriated to DNR only for river protection grants to pay the costs incurred for activities conducted under lake monitoring contracts.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.
