### *Analysis by the Legislative Reference Bureau*

Under this bill, if the Department of Natural Resources finds that the holder of a Wisconsin Pollutant Discharge Elimination System permit has violated groundwater standards, DNR must notify the county health department and county land and conservation department in the county in which the permit holder is located and the county health department and county land and conservation department in any adjacent county that DNR determines may be negatively affected by the violation. The bill requires DNR to provide these notices within seven business days after confirming that a violation has occurred. The bill also allows DNR to establish, by rule, procedures for providing the required notice. Finally, the bill requires DNR to create and maintain a notification system for notifying county health departments, county land and conservation departments, and interested parties of the types of violations that trigger the notice requirement.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
