2 the statutes; **relating to:** throwing or expelling a bodily substance at a public
3 safety worker or prosecutor.

Analysis by the Legislative Reference Bureau

Under current law, if a prisoner throws or expels blood, semen, vomit, saliva, urine, feces, or other bodily substance at or toward an officer or other person in the prison or facility, a court may order the prisoner to undergo testing for communicable diseases if there is probable cause to believe that there was potential for transmitting a communicable disease to the victim. This bill allows a court to require such testing for any criminal defendant who throws or expels blood, semen, vomit, saliva, urine, feces, or other bodily substance at or toward a public safety worker or a prosecutor.
