***Analysis by the Legislative Reference Bureau***

This bill requires the state superintendent of public instruction, in consultation with the Department of Children and Families, to develop a model curriculum and instructional materials for grades 7 to 12 on human trafficking prevention. The model curriculum and instructional materials must be age appropriate at each grade level and must include instruction on Internet safety. Beginning in the 2024-25 school year, the bill requires each school board to provide age-appropriate instruction in human trafficking prevention in grades 7 to 12. Under the bill, the instruction must be consistent with the model curriculum or a curriculum that is substantially similar to the model curriculum. Finally, under the bill, school boards must require full-time school district employees who are required to hold a license issued by the Department of Public Instruction to receive training in identifying victims of child trafficking.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
