**20.001 Definitions and abbreviations.** In s. 20.005 terms and abbreviations shall have the following meanings:

(1) Unassigned revenues are revenues which are paid into a state fund, lose their identity, and are then available for appropriation by the legislature. Such revenues constitute "executive budget revenues".

(2) Assigned revenues are revenues which are paid into a state fund and are credited by statute to an appropriation to finance a specified activity or agency. Such revenues constitute "revolving budget revenues".

(3) Annual appropriations are appropriations which are expendable only for the fiscal year for which made. At the end of the fiscal year unexpended balances revert to the fund from which appropriated.

(4) Sum sufficient appropriations are appropriations which are expendable in the amounts necessary to accomplish the purpose specified; such budgeted amounts represent the most reliable estimates obtainable. They are indicated by the abbreviation S in s. 20.005.

(5) Biennial appropriations are appropriations which are expendable only for the biennium for which made. For accounting purposes and for computation of surplus at the close of any fiscal year the expenditures from biennial appropriations in the first fiscal year of a biennium shall constitute the appropriations for such year and the unexpended balances of biennial appropriations at the end of the first year of a biennium shall constitute the appropriations for the second year of the biennium. At the end of the biennium unexpended balances shall revert to the fund from which appropriated. Biennial appropriations are indicated by the abbreviation B in s. 20.005.

(6) Nonlapsing appropriations are appropriations which are expendable until fully depleted or repealed by subsequent action of the legislature. They are indicated by the abbreviation C in s. 20.005.

(7) Revolving appropriations are appropriations of assigned revenues as set forth in sub. (2); they are continuing unless otherwise provided by statute.

**History:** 1953 c. 251; 1955 c. 204.

**20.002 Construction of appropriation statutes.** In the construction of appropriation clauses, the following rules shall be observed unless such construction would be inconsistent with the manifest intent of the legislature; that is to say:

(1) **EFFECTIVE PERIOD OF APPROPRIATIONS.** Unless otherwise provided, appropriations shall become effective on July 1 of the fiscal year for which made and shall be expendable until the following June 30. If the executive budget for any biennium does not become effective on or before July 1 of the odd-numbered year, the appropriations provided for the preceding fiscal year shall be in effect in the new fiscal year until amended or eliminated by the legislature.

(2) **ALLOCATIONS.** Unless otherwise provided, the itemization by the legislature of a total appropriation into personal services, materials and expense, and capital outlay is an allocation for those purposes and a limitation on the amount that may be expended for each such purpose.

(3) Appropriations in the following language, or substantially similar language, shall be construed to be annual, continuing appropriations, and balances shall be available as provided in sub. (8):

There is annually appropriated, beginning (day of month and year) . . . dollars, payable from any moneys in the . . . fund not otherwise appropriated, for (department) for (purpose or object).

There is annually appropriated . . . dollars, payable from any moneys in the . . . fund not otherwise appropriated, for (department, purpose or object).

There is annually appropriated, such sums as may be necessary, from the state treasury, for (department, purpose or object).

(4) Appropriations in the following language or in substantially similar language shall be construed to be noncontinuing, lapsible appropriations and balances unexpended at the close of the appropriation period or interval shall revert to the fund from which appropriated:

There is appropriated for the fiscal year . . . , the sum of . . . dollars, payable from any moneys in the . . . fund not otherwise appropriated, for (department) for (purpose or object).

(5) Where any appropriation is repealed or any balance of an appropriation is caused to revert, any indebtedness incurred under the authority of such appropriation or balance prior to the time as of which such repeal or reversion of balance is to take effect, shall be paid from the appropriation or balance thus repealed or reverted as the case may be unless otherwise specifically provided by law.

(6) No appropriation shall be available for payment of any indebtedness incurred prior to the time as of which such appropriation is to take effect or for any other purpose than that for which it is made unless otherwise specifically provided by law.

(7) In any case where a nonlapsible, or a continuing, nonlapsible appropriation, is amended, either as to amount or purpose, the balance shall go forward as if the same had not been amended, and shall be available for the purposes, and subject to the conditions or limitations set out in the appropriation as amended, unless otherwise specifically provided by law.

(8) All appropriations or balances of appropriations remaining unexpended and unencumbered at the end of the fiscal year for which they are made shall revert to the fund from which appropriated, but this shall not apply to revolving appropriations, except revolving appropriations which are added to and included with appropriations for operation, to highway appropriations, appropriations of moneys received from the federal government, or appropriations for the purchase of land and for permanent property and improvements. Appropriations for the purchase of land and for permanent property and improvements shall continue to be available until the attainment of the object or the completion of the work for which such appropriations were made, and except as otherwise provided by law all balances remaining shall revert to the fund from which appropriated.

(9) All appropriations to any department, expenditures from which, under any provision of the statutes, may be made only with the approval of the governor or the director of budget and accounts, shall be construed to be conditional appropriations, which shall become available only as contemplated expenditures therefrom are approved by these officers, in the manner required by law.

(10) Whenever a continuing or nonlapsing appropriation from any fund has accomplished its purpose or is no longer deemed necessary for such purpose, the director of budget and accounts is authorized to lapse such appropriation balance, in whole or in part, to the fund from which appropriated upon receipt of a letter from the director of the state agency concerned approving said action.

**History:** 1947 c. 9 s. 31; 1951 c. 319 s. 197; 1953 c. 30, 251; 1955 c. 204, 385; 1957 c. 259.

**20.003 Appropriation acts and bills.** (1) All appropriations made by the legislature shall be listed in ch. 20. The revisor of statutes shall assign numbers in ch. 20 to any appropriations not so numbered.

(2) All bills making sum sufficient appropriations or increasing or decreasing existing appropriations or fiscal liability except bills referred to the joint survey committee on retirement systems shall incorporate as a note a reliable estimate of the amount thereof. Such estimate shall be made by the agency receiving the appropriation.

(3) If an appropriation bill is similar (except for amount) to another appropriation bill or bills, the chief of the legislative reference library shall indicate that fact by note to the appropriation bill, giving the numbers of the other bills.

(4) In ss. 20.100 to 20.899, subsection numbers (1) to (39) shall be assigned to appropriations from the general fund for executive budget operations; subsection numbers (40) to (69) shall be assigned to appropriations from the general fund for revolving budget operations; and subsection numbers (70) to (99) shall be assigned to segregated fund appropriations.

(5) If appropriation laws are enacted which are not numbered to correspond with the alphabetical recodification of ch. 20, the revisor of statutes shall renumber such laws accordingly.

(6) Upon receiving the composite corrected schedules from the director of budget and accounts pursuant to s. 20.007, the revisor shall substitute for the language in 20.005 (1) (intro. par.), (2) (intro. par.) and (a) (intro. par.) as created by the several budget bills in each session the language corresponding thereto in the 1955 statutes and shall change the dates accordingly.

(7) The revisor shall renumber and arrange alphabetically by agencies the numbered lines in the schedule of statutory salaries in s. 20.930 (1) (a) to correspond with the recodification of ch. 20.

**History:** 1953 c. 251; 1955 c. 385, 610, 650; 1957 c. 30, 456.

**20.004 Revenue bills.** Any bill increasing or decreasing state revenue shall incorporate an estimate of the anticipated change in revenue under the provisions of the bill. Such estimate shall be made by the agency responsible for collecting the revenue.

**History:** 1953 c. 251.

**20.932 Monthly bonus payments.** (1) In a rapidly changing economy it has been found essential to supplement fixed salaries with a bonus that varies from time to time in accordance with changes in consumers' prices.

(2) Each employe in the classified service, except employes paid on a prevailing rate or a per diem basis, shall be paid a cost of living bonus as hereinafter provided, in addition to the salary currently payable to such employe pursuant to ss. 20.931 and 16.105 (2) and (4), without restriction or limitation by reason of the maximum salary of the range established for his classification or other statutory limitation thereof.

(3) (a) An initial cost of living bonus shall be paid monthly to each such employe as follows:

Present Monthly Salary Rate	Initial Cost of Living Bonus
\$110 or less .....	\$.67
\$115 or more .....	\$.65

(b) Such initial cost of living bonus shall be deemed compensation for living conditions prevailing as of January 15, 1953, which together with such further adjustments as may be made in accordance with this subsection shall be applicable on the effective date of this section.

(c) The revised consumers' price index, average 1947—1949=100, all items, all cities combined, established by the bureau of labor statistics of the U. S. department of labor and as printed in the monthly labor review, or as otherwise released, shall be used for computing increases or decreases in the cost of living bonus.

(f) The governor, personnel board and the emergency board as soon after such index material for such applicable quarterly periods of each year is made available by the director of personnel, shall meet in joint conference, from time to time, to compute such change in the cost of living indexes and determine therefrom if such initial (or the then applicable) cost of living bonus shall be changed as provided therein.

(g) If it is found that the index number has increased or decreased 0.6 or more points, quarterly, the cost of living bonus shall be increased or decreased at the rate of \$1 for each such full 0.6 point of increase or decrease in the consumers' price index.

The director of budget and accounts shall then issue warrants for the respective amounts due the persons listed on each pay roll, including the person or officer or department designated to receive the amounts deducted from the salaries listed therein, and the checks for such payments when received by the respective departments shall be transmitted to the persons entitled to receive them.

(2) In cases where the law or regulations governing deductions from salaries and the payment of the sums deducted to the person entitled to receive them, require payment at intervals greater than one month, the sums so deducted may be paid to the state treasurer, to be deposited by him in the fund from which the salaries were paid. Such sums shall be credited, in each case, to the department which made the deductions, to be paid over at the proper time to the person entitled to receive them.
