251.02 Local health department; establishment. (1) In counties with a population of less than 750,000, unless a county board establishes a city–county health department under sub. (1m) jointly with the governing body of a city or establishes a multiple county health department under sub. (3) in conjunction with another county, the county board shall establish a single county health department, which shall meet the requirements of this chapter. The county health department shall serve all areas of the county that are not served by a city health department that was established prior to January 1, 1994, by a town or village health department established under sub. (3m), or by a multiple municipal local health department established under sub. (3r) or by a city–city health department established under sub. (3t). No governing body of a city may establish a city health department after January 1, 1994.

(1m) Subject to sub. (1r), in counties with a population of less than 750,000, the county board and the governing body of a city that has a city health department may jointly establish a city–county health department, which shall meet the requirements of this chapter. A city–county health department shall serve all areas of the county that are not served by a city health department that

was established prior to January 1, 1994, by a town or village health department established under sub. (3m), or by a multiple municipal local health department established under sub. (3r). A city–county health department established under this subsection after September 1, 2001, is subject to the control of the city and county acting jointly under an agreement entered into under s. 66.0301 that specifies, in conformity with this chapter, all of the following:

(a) The powers and duties of the city–county health department.

(b) The powers and duties of the city–county board of health for the city–county health department.

(c) The relative powers and duties of the city and county with respect to governance of the city–county health department and the city–county board of health.

(1r) If a city that assigns represented employees to its city health department and if a county that assigns represented employees to its county health department jointly establish a city–county health department under an agreement specified under sub. (1m), all of the following shall apply, but only if the represented employees at the city health department and at the county health department who perform similar functions are included in collective bargaining units that are represented by the same representative:

(a) The city–county health department shall offer employment to all city and county employees who are represented employees and who perform functions for the city and county that are transferred to the city–county health department in the agreement under sub. (1m).

(b) Notwithstanding s. 111.70 (4) (d), if, in any collective bargaining unit that is initially created at the city–county health department, all of the former city and county employees were represented by the same representative when they were employed by the city or county, that representative shall become the initial representative of the employees in the collective bargaining unit without the necessity of filing a petition or conducting an election.

(c) Unless otherwise prohibited by law, with respect to city–county health department employees who were formerly represented employees at the city or county, the city–county health department shall adhere to the terms of the collective bargaining agreements that covered these employees while they were employed by the city or county until such time that the city–county health department and the representative of the employees have entered into a collective bargaining agreement.

(2) (a) Except as provided in par. (b), in a county with a population of 750,000 or more, the governing body of each city or village shall do one of the following:

1. Establish a local health department that meets the requirements of this chapter.

2. Contract with the local health department of another city or village in the county to have that local health department provide services in the city or village.

(b) In a county with a population of 750,000 or more, the governing body of a city or village may establish, jointly with the governing body of another city or village, a multiple municipal local health department that meets the requirements of this chapter.

(3) A county board may, in conjunction with the county board of one or more other counties, establish a multiple county health department, which shall meet the requirements of this chapter. A multiple county health department shall serve all areas of the respective counties that are not served by a city health department that was established prior to January 1, 1994, by a town or village health department established under sub. (3m), or by a multiple municipal local health department established under sub. (3r).

(3m) If a county has a population of at least 100,000 but less than 750,000 and the county board of that county has, by July 1, 1985, abolished a county health commission or committee established under s. 141.10, 1991 stats., a village board in that county may continue and establish as a local board of health a village board of health that was established prior to January 1, 1994, and a town board in that county may continue and establish as a local board of health a town board of health that was established prior to January 1, 1994. A village or town that does so shall establish a local health department and elect a local health officer consistent with this chapter.

(3r) In a county described in sub. (3m), in addition to the local health department required to be established under sub. (3m), the governing body of a city, village or town in that county may, in concert with the governing body of another city, village or town in that county, establish a multiple municipal local health department and elect a local health officer consistent with this chapter.

In appointing the members who are not elected officials or employees, a good faith effort shall be made to appoint a registered nurse and a physician, except that if the appointing authority is unable to locate a willing registered nurse, physician, or both, it shall make a good faith effort to appoint a physician assistant, advanced practice registered nurse, or both. Members of the local board of health shall reflect the diversity of the community. A county human services board under s. 46.23 (4) may act as a county board of health if the membership of the county human services board meets the qualifications specified in this subsection and if the county human services board is authorized to act in that capacity by the county board of supervisors. If a county human services board acts in this capacity, it shall use the word “health” in its title.

(3) In establishing a city–county or multiple county health department, the relevant governing bodies shall agree on how many members of the local board of health are appointed by each governing body and how many of each governing body’s appointees shall be members who are not elected officials or employees of the governing body. The members shall be appointed as specified in sub. (2).

(4) Governing bodies of counties, cities or villages that appoint local boards of health shall specify the lengths of terms of members and shall provide for staggered terms.

(4m) Subsections (1) to (4) do not apply to a village or town that establishes a local health department under s. 251.02 (3m). In a village or town that does so, the village board or town board shall establish itself as a local board of health or appoint either wholly or partially from its own members a local board of health that consists of a suitable number of competent persons. A local board of health under this subsection shall elect a chairperson and clerk.

(4r) Subsections (1) to (4m) do not apply to a city, village or town that establishes a multiple municipal local health department under s. 251.02 (2) (b) or (3r), or to cities that establish a city–city local health department under s. 251.02 (3t). In establishing a multiple municipal local health department as described under s. 251.02 (2) (b) or (3r), the relevant governing bodies shall agree on how many members of the local board of health are appointed by each governing body and how many of each governing body’s appointees shall be members who are not elected officials or employees of the governing body. The members shall be appointed by the relevant governing bodies. A local board of health under this subsection shall elect a chairperson and clerk.

The local board of health shall coordinate the activities of any sanitarian employed by the governing body of the jurisdiction that the local board of health serves. The local board of health is not required to employ different persons to perform these functions.

(9) In counties with a single county health department and either a county executive or a county administrator, the county executive or county administrator may assume the powers and duties of a local board of health under this section. This section does not require that a county create a stand-alone county health department and does not preclude the county human services director from exercising any managerial authority over the county health officer with respect to the operation of county health department programs.
